

## Clark Forklift Part

Clark Forklift Parts - At this time, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of lift trucks, with components covering more than 120,000 specialized items for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Worldwide, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark has a uncompromising mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants because this system is extremely economical and enables minimal use of resources. Developed to ensure maximum proficiency, this system is designed to find and acknowledge the most effective methods for production plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the efficiency and brilliance of their products while minimizing costs. The new value engineering agenda combines modern product development and provides superior client support and service within the industry.
