

Lull Telehandler Part

Lull Telehandler Parts - Telehandlers by Lull have been supplying load placement accuracy since the year 1959. The Lull telehandler could help make the task easier and faster, whether the job involves transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are complete with the patented Stabil-Trak stability system so as to ensure operator confidence.

The horizontal placement system by Lull could supply 80 inches of boom travel for precision placement functionality. There are likewise many optional Lull attachments for their telehandlers in order to help do whatever job.
